1. Student athletes are covered by accident insurance financed by the Weakley County School System. This insurance is provided on a “Full Excess” basis (supplemental) for covered expenses. Covered expenses will be paid when they are in excess of any other plan providing medical expense benefits. All bills must be submitted to the primary provider first. The school policy will consider the unpaid balances for covered expenses up to the limits of the policy.
  2. In case of injury, the parents must notify the school office immediately to determine if the accident is eligible for coverage by the accident insurance financed by the Weakley County School System.
  3. All parents are encouraged to have insurance designed to provide medical coverage for illness, injury, and/or accidents.
- In case of student accidents or injuries, neither the Weakley County School System nor the individual school is responsible for medical bills.
